Workshop

Control of Antibiotics Use and
Surveillance of Clinical Pathogens in Veterinary in Europe

Spanish Agency of Medicines and Medical Devices, Madrid, Spain

29-30 October 2018

AGENDA

29 October

"Reduction of Antibiotics Use"

13:00-13:15	**Arrivals and registration**
13:15-13:30	**Opening.**
	María Jesús Lamas Díaz, *Directora de la Agencia Española de Medicamentos y Productos Sanitarios (AEMPS), Spain*
13:30-14:30	**EU examples on the reduction of antibiotics use:**
	• **One Health national strategies and national action plans of AMR in Europe (TBC)**
	Pita Spruijt, *WP5 EU-JAMRAI*
	• **Belgian experience**
	Fabiana Dal Pozzo, *Coordinator of the AMCRA*
14:30-15:00	**Presentation of the Spanish consumer data collection system**
	Ines Moreno, *Ministerio de Agricultura y Pesca, Alimentación (MAPA), Spain*
15:00-15:30	**Coffe break**
15:30-16:15	**"Planes Reduce Consumo": a case of collaboration success**
	Cristina Muñoz Madero/Sara Sacristán Álvarez, *Plan Nacional frente a la Resistencia a los Antibióticos (PRAN), Agencia Española de Medicamentos y Productos Sanitarios (AEMPS), Spain*
16:15-16:45	**Round table and questions**

Consumers, Health, Agriculture and Food Executive Agency

30 October

"Surveillance of Clinical Pathogens in Veterinary"

9:30-10:30	**Target pathogen AMR monitoring Czech Republic experience** ***Lucie Pokludová***, *Assessor of efficacy and ESVAC coordinator of Institute for State Control of Veterinary Biologicals and Medicaments, Czech Republic*
10:30-11:30	**EU-JAMRAI: Clinical Pathogens Surveillance Network** ***Jean-Yves Madec***, *Scientific Director on Antimicrobial Resistance, of the Agence nationale de sécurité sanitaire de l'alimentation, de l'environnement et du travail (ANSES), France.*
11:30-11:45	**Coffee break**
11:45-12:45	**Choice of antimicrobials under field conditions. Is it possible in daily practice?** **1.- Problems of sensitivity tests versus clinical urgency** **2.- MIC as a reference pharmacodynamic parameter: Is it possible?** **3.- Integration of pharmacodynamic information to make a better selection of antimicrobials.** **4.- Definition of epidemiological unit in clinical practice.** **RAM5.- Decision tree: Own information versus population information.** ***Lorenzo Fraile***, *Universidad de Lérida*
12:45-13:45	**Results dissemination: epidemiological mapping by farming regions** ***Eduard Allué Pont***, *Grup de Sanejament Porcí (GSP)*
13:45-14:30	**Conclusions**
14:30	**Lunch**
