eXtended EudraVigilance Medicinal Product Dictionary Training Course

Course #13165 28-29 October 2013 AEMPS, Madrid, Spain

Key Topics

- General Terms and Definitions
- Registration in EudraVigilance and Qualified Person Responsible for Pharmacovigilance (QPPV) registration (incl. sponsor registration)
- XEVPRM XSD Schema
- XEVPRM data elements and examples including hands-on exercises
- Operation Types
- Data Quality
- Data Ownership
- XEVMPD technical validation rules
- Use of Controlled Vocabularies

Course Goals

At the end of this course, participants should be able to:

- Understand the concepts related to the electronic submission of information on medicines authorised in the EU
- Describe the format and the data elements of the XEVPRM for authorised medicinal products
- Discuss practical examples of different types of medicinal products
- Get hands-on experience in working with the XE-VMPD
- Describe the format and the data elements of the XEVPRM for IMPs

Details of the face-to-face training courses:

Duration: 2 days Location: AEMPS Parque Empresarial Las Mercedes Edificio 8, 3ª planta-A c/ Campezo, 1 E-28022-Madrid Spain

The course is limited to 16 participants. Register early! Training on electronic submission of information on medicines New pharmacovigilance legislation (Art. 57, paragraph 2, 2nd sub-paragraph, Regulation (EC) No. 726/2004)

Introduction

The European Medicines Agency (EMA) is implementing the electronic submission of information on medicines in the context of the new pharmacovigilance legislation (Art. 57, paragraph 2, 2nd subparagraph,Regulation (EC) No. 726/2004). On 05 March 2012, EMA published an updated set of mandatory requirements for marketing authorisation holders to comply with Article 57(2). The number of data fields initially required in the format published on 2 July 2011 was considerably reduced, thus significantly reducing the administrative burden and helping marketing authorisation holders to meet their legal deadline of 2 July 2012.

With regard to investigational medicinal products (IMPs), EMA is also facilitating the implementation of the provisions set out in the detailed guidance on the collection, verification and presentation of adverse event/reaction reports arising from clinical trials on medicinal products for human use ("CT-3", chapter 7.9, paragraph 104).

Course Overview

The EMA has prepared this eXtended EudraVigilance Medicinal Product Dictionary (XEVMPD) course to facilitate the practical implementation of the requirements including technical aspects and all related procedures on electronic submission of information on medicines by marketing authorisation holders in the European Union (EU).

The training focuses on explaining the guidance, specifically the mandatory data elements necessary for the electronic submission of information on medicinal products applying the format of the eXtended EudraVigilance Product Report Message (XEVPRM) and the use of the XEVMPD data entry tool also known as EVWEB.

Participants who successfully pass the knowledge evaluation following the course will receive a notification from the European Medicines Agency that will allow them to register with EudraVigilance for the electronic submission of information on medicines in accordance with Article 57(2), second subparagraph of Regulation (EC) No. 726/2004.

The course also includes instructions for sponsors of clinical trials as how to provide information on the IMPs in the EudraVigilance Medicinal Product Dictionary ('EVMPD') before completing the clinical trials application form.

Course Audience

The XEVMPD training programme is targeting personnel of marketing authorisation holders, consultants and other organisations, who are responsible for the electronic submission and maintenance of information on medicinal products authorised in the EU.

It is also targeting sponsors of clinical trials responsible for providing information on IMPs in accordance with the CT-3 detailed guideline.

The content of this training course is subject to regular updates in order to comply with new regulations and requirements.

What this course offers

- Training in meeting the requirements of the provisions of Article 57(2), second sub-paragraph of Regulation (EC) 726/2004 and the electronic submission of information on authorised medicinal products
- Training in supporting the electronic submission of information on authorised medicinal products for Gateway users
- Training in developing messages compliant with the published XEVPRM XSD schemas
- Training in supporting the electronic submission of information on authorised medicinal products for Web trader and XEVMPD users
- Hands-on training using the XEVMPD to generate XEVPRMs
- Training in meeting the requirements of the provisions set out in the detailed guidance ("CT-3") and the electronic submission of information on IMPs

What this course does not cover

- Training in developing and validating information or communication technology tools to produce messages compliant with the published XEVPRM and SSI XSD schemas
- Training on all five ISO Identification of Medicinal Products (IDMP) standards and the Individual Case Safety Report (ICSR) standard as well as related ICH Implementation Guides
- Training on IDMP, ICSR and Common Product Model (CPM) HL7 V3 messages

Course Pre-requisites

Participants are expected to have basic background knowledge of:

- EU legislation and the revised guidance on the electronic submission of information on medicinal products for human use by marketing authorisation holders to the European Medicines Agency in accordance with Article 57 (2), second subparagraph of Regulation (EC) 726/2004
- Detailed guidance on the collection, verification and presentation of adverse event/reaction reports arising from clinical trials on medicinal products for human use ("CT-3", cahpter 7.9, pragraph 104).
